

Study Requirements
EVIDENCE-BASED PREVENTION AND HEALTH PROMOTION
5th year pharmacy students

Evidence-based prevention and health promotion is taught by 2 hours lecture per week.

Conditions of accepting the semester:

- a) **active and regular participation at the lectures (at least 70%, that is 8 lectures).**
The presence of students will be checked by attendance lists each time.

- b) On the Coospace, **a control-test containing 10 questions will belong to each lecture.** Students must complete these tests by the end of the semester. A test can be fulfilled several times (up to 3 times), but at least once **60% performance has to be per each test**, which is the condition of accepting the semester.

The PowerPoint presentation of the actual lecture will be uploaded to the “Educational materials” folder in pdf form, not later than the originally scheduled classroom lecture.

The material that must be known for the examination is uploaded on the Coospace in the “**Educational materials**” (lecture slides, other documents) folder.

The end-semester exam (first, second and third exam) will be organized as **Coospace test**. There will be 30 test questions, various question types will be used (simple choice, multiple choice, paring etc., which were partly present in the control-tests). Every correct answer is equal with 1 point. During 30 minutes, maximum 30 points can be gained. After answering a question, there is no opportunity to move back to a previous question. The result of the exam will be shown immediately after finishing the exam.

Exam mark is calculated according to the following:

27–30 points:	excellent (5)
24–26 points:	good (4)
21–23 points:	accepted (3)
18–20 points:	passed (2)
0–17 points:	failed (1)

The **educational advisor** is: Dr. Zsuzsanna Máté, mate.zsuzsanna@med.u-szeged.hu. Educational affairs can be managed by e-mail. Emails should contain the full name of the student and faculty, if any of these data is missing then no reply will be.

Knowledge required:

- “Educational materials” available from Coospace (lecture slides, other documents)
- All material taught at lectures
